What NRL uses currently

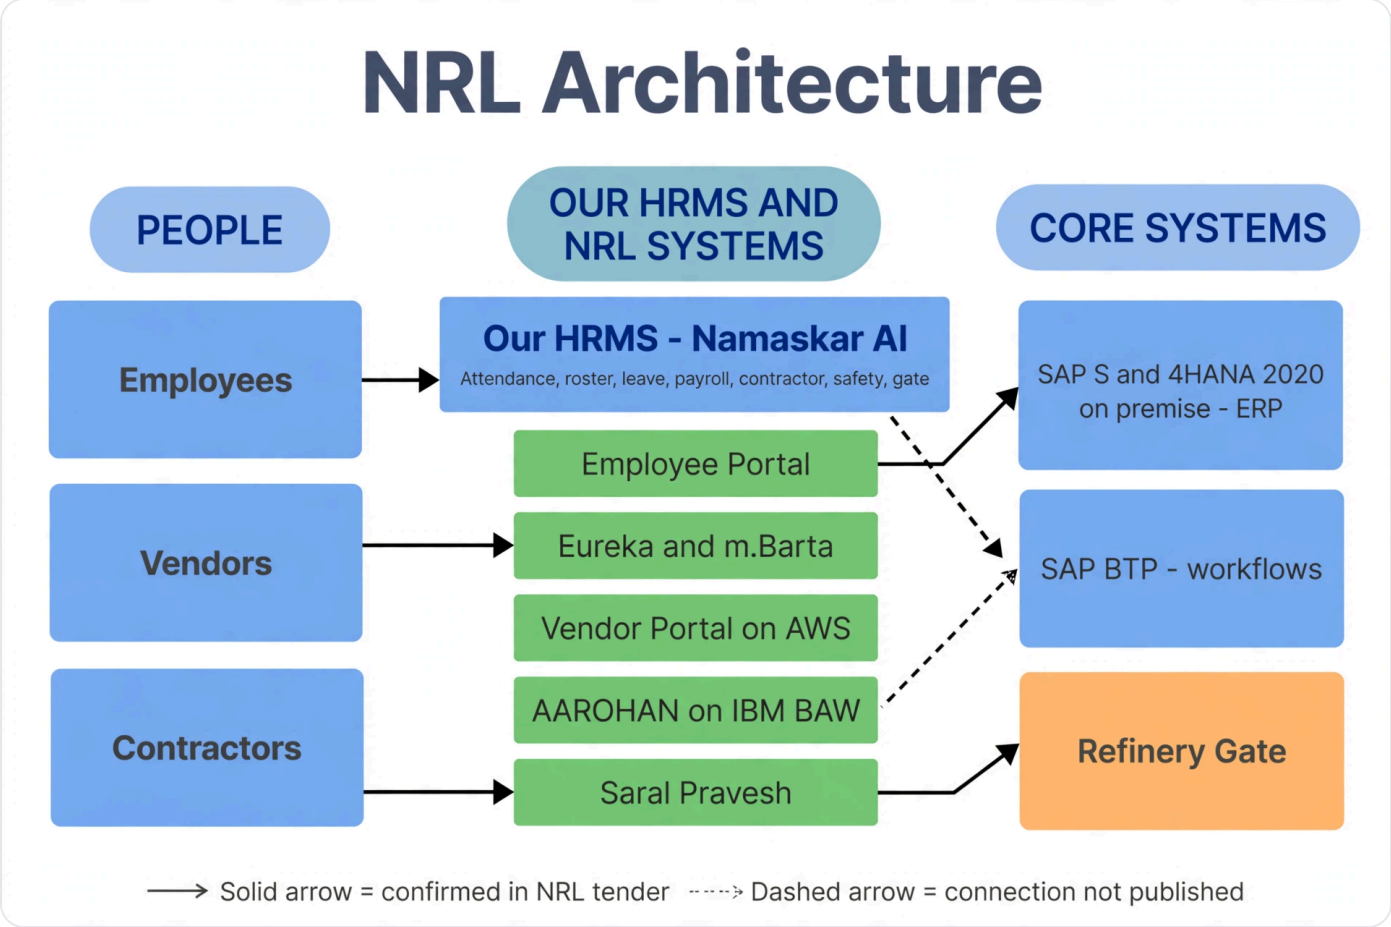

Numaligarh Refinery Limited — current systems. From NRL public documents.

Summary: NRL does not run one single HRMS. It runs SAP for business, AAROHAN for workflow, an Employee Portal for staff, Eureka for rules, m.Barta for updates, and Saral Pravesh for gate passes.

NRL current systems.

Architecture

Schematic only. Solid arrow = confirmed in NRL tender. Dashed arrow = connection not published.

People to Our HRMS: Employees, Managers, and HR use Our HRMS for attendance, roster, leave, payroll, contractor, safety, and gate work.

Our HRMS to existing systems: Payroll and employee data to SAP S/4HANA, approvals through AAROHAN on IBM BAW, gate passes checked in Saral Pravesh, then entry at the Refinery Gate.

Stays unchanged: Vendor Portal through SAP BTP to SAP, Eureka for policies, m.Barta for updates.

1. SAP S/4HANA 2020, on premise

NRL's main business system. It keeps company records, money, materials, and vendor bills in one place. It is the whole company system, not just HR.

Source: GeM tender OC23000069, 22 Oct 2024, and tender PUR1008544, 26 Apr 2025.

2. SAP BTP

A tool on top of SAP that helps build small apps and workflows, like processing a vendor invoice, without changing SAP itself. NRL holds a BTP licence.

Source: Same tenders as above.

3. AAROHAN, on IBM BAW

NRL's paperless office. Instead of physical files moving desk to desk, a proposal moves online, with approvals and documents in one place. Full name: ANYTIME ANYWHERE ROBUST OFFICE-SOLUTION FOR HARNESSING AUTOMATION. Launched August 2020, started with buying and payments. In 2020, NRL said AAROHAN would eventually cover all business processes, including HR.

Source: NRL Paperless Office launch report, and GeM tender OC23000069, which lists AAROHAN on IBM BPM/BAW.

4. Employee Portal

The staff website. An employee logs in and sees leave, payslips, claims, and performance, instead of going to HR for each one. Launched as a unified, mobile-compatible portal in 2024-25, replacing older separate ESS apps.

Source: NRL Annual Report 2024-25, via Oil India.

5. Eureka

NRL's internal intranet and library. Staff read policies, SOPs, and HR rules there.

6. m.Barta

An internal app for news, updates, and coordination inside NRL.

Source: NRL Annual Reports 2024-25 / 2025-26, via Oil India.

7. Saral Pravesh

The gate pass website. A contractor registers there, applies for a pass, and gets a smart card photo pass to enter the refinery. One day safety training is required before a pass is issued.

Source: NRL tender PUR1012947 for Saral Pravesh; one-day safety training clause in other NRL tenders, including PUR1011044 (Feb 2026).

What is NOT confirmed

No NRL official document checked names a standalone HRMS like Darwinbox or SAP SuccessFactors, and no public HRMS tender was found in the documents checked. No NRL official document checked names a current SAP HCM or payroll product, the technology behind the Employee Portal, the biometric or gate hardware vendor, or the current payroll bank.
